

Lewis and Clark historical artifacts shown to fourth graders

Carrollton fourth graders at Root School recently attended a presentation in the Dieterich gym given by Mr. and Mrs. Don Riddle of Brunswick.

The Riddles are members of the Mid-Missouri Chapter of the Lewis and Clark Trail Heritage.

This chapter has developed a Lewis and Clark trunk for use as an educational tool while studying the Lewis and Clark Expedition with Missouri history.

The trunk itself is for schools to check out and is filled with interactive artifacts

and activities about Lewis and Clark.

This trunk remained in the Carrollton R-VII District for two weeks with all fourth graders taking an active role in the investigation of the trunk's contents.

Don Riddle, left, and his wife of Brunswick, Mo. are shown presenting an assembly to fourth grade students at Dieterich School. Mr. and Mrs. Riddle told the children about the "Lewis and Clark" trunk and the historical artifacts that it contained. (submitted photo)
